

Sulay Sumaria - Freelance Full Stack Engineer & Solution Architect

sulaysumaria@gmail.com | [LinkedIn](#) | [Credly](#)

About

Full Stack Engineer and Solution Architect with 10+ years of experience building production-grade web and desktop applications. I work independently with clients end-to-end - from requirement gathering and architecture design through development, deployment, and handoff. Currently available for freelance engagements.

What I bring to a project:

- Translating business requirements into scalable technical architecture
- Solo or lead delivery across the full stack (frontend, backend, infrastructure)
- AWS-certified cloud design and deployment (EC2, ECS, Lambda, S3, SQS, CloudFront, Bedrock)
- Process automation to reduce manual overhead and operational costs

Portfolio

SFL (Smart Facility Labs) - [Live](#) · [Case Study](#)

Cloud-based platform for energy, property, and asset management in commercial and residential facilities. Covers building management, safety monitoring, and sustainability reporting with real-time operational insights.

- **Role:** Solution Architect, Full Stack Developer
- **Stack:** NodeJS, ReactJS, MySQL
- **Contribution:** Designed the system architecture and led full stack development from the ground up, serving 50+ facilities across 7 clients with 99.9% uptime.

SH-Tracker - [Case Study](#)

Employee time tracking and productivity monitoring platform with automated activity logging, screenshot capture, and performance reporting. Ships as a web panel plus native desktop apps for macOS, Windows, and Linux.

- **Role:** Solution Architect, Full Stack Developer, DevOps
- **Stack:** NodeJS, ReactJS, MongoDB, MUI, Electron
- **Contribution:** Architected and built the full platform including cross-platform desktop packaging and CI/CD pipelines, used by 100+ employees.

Competitor Analysis Tool (CAT) - [Case Study](#)

Comprehensive web platform for marketplace sellers to monitor competitor pricing, download trends, and revenue patterns in real time. Includes direct marketplace integrations to update product prices and

keywords from within the app, and an intelligent alerting system with customizable rules for competitor price changes.

- **Role:** Solution Architect, Full Stack Developer, DevOps
- **Stack:** NodeJS, ReactJS, MongoDB, shadcn
- **Contribution:** Designed and built the full platform including data ingestion, analysis pipeline, dashboard, and marketplace API integrations, tracking 60,000+ products in near real time.

DNS Checker - Private

DNS analysis platform for verifying record propagation, running global lookups, and diagnosing domain configuration issues.

- **Role:** Solution Architect, Full Stack Developer, DevOps
- **Stack:** NodeJS, ReactJS, MongoDB
- **Contribution:** Built end-to-end from architecture to deployment, handling 5,000+ DNS lookups/day across 100+ users.

Thirty11 - Corporate Website - [Live](#)

Public website for a tech consultancy offering DevOps, cloud optimization, and custom software development services.

- **Role:** Solution Architect, Full Stack Developer, DevOps
- **Stack:** NodeJS, ReactJS, MongoDB

Mini-tools

Self-contained browser-based utilities built and shipped independently:

Tool	Description
Wifi File Share	Peer-to-peer file transfer between devices on the same network - no cloud, no upload
AWS CUR Analyzer	Upload AWS Cost & Usage Report CSVs to visualize spend by service and daily averages
DMARC Report Analyzer	Parse and analyze DMARC XML reports to audit email authentication
Email Security Score	Instantly score a domain's email security posture (SPF, DKIM, DMARC)
JSON Size Analyzer	Analyze JSON payloads, identify optimization opportunities, and estimate compression

Technical Stack

- **Languages:** TypeScript, JavaScript
- **Frontend:** ReactJS, NextJS, MUI, shadcn
- **Backend:** NodeJS, ExpressJS, GraphQL, Socket.io, Serverless
- **Desktop:** Electron (macOS, Windows, Linux)

- **Databases:** MongoDB, PostgreSQL, MySQL
- **AWS:** EC2, ECS, ELB, Lambda, S3, SQS, SES, CloudFront, Bedrock
- **DevOps:** GitHub Actions, Git, n8n
- **Design/Planning:** draw.io, dbdiagram.io

Certifications

- [AWS Certified AI Practitioner](#) - May 2026
- [AWS Certified Solutions Architect – Associate](#) - August 2025
- [AWS Certified Cloud Practitioner](#) - May 2025

Experience

Role	Company	Period
Professional Freelancer	Independent	Apr 2025 – Present
Software Engineer / Project Manager	Thinkwik	Jul 2019 – Mar 2025
Software Engineer	Aditech	Feb 2019 – May 2019
Software Developer	Gymshim	Oct 2018 – Feb 2019
Backend Developer	Zettabyte Pte Ltd	Nov 2017 – Oct 2018
Associate Technical Consultant	Streebo Inc	Dec 2016 – Nov 2017

Other

- **Languages:** Gujarati, Hindi, English
- **Interests:** Building tools and utilities, cloud cost optimization, staying current with emerging tech
